

A photograph of two solar installers on a roof. One installer in the foreground is wearing a white hard hat with 'POW' on it, a blue long-sleeved shirt, and khaki pants. He is leaning over a solar panel. Another installer in the background is wearing a blue hard hat and a blue long-sleeved shirt, also leaning over a panel. The roof is covered with solar panels, and there are some white foam blocks or insulation visible. The background shows a residential neighborhood with houses and trees under a clear blue sky.

The background image shows two workers in blue jackets and white hard hats installing solar panels on a roof. The worker in the foreground is wearing a white hard hat with 'ADW' on it and is leaning over the panels. The worker in the background is also wearing a blue jacket and a white hard hat. The roof is covered with solar panels, and the sky is clear and blue. The overall scene is a construction site for solar energy.
